

# Privacy Impact Assessment

Version Number: [x.x]

Version Date:

Issued by:

[Senior Official for Privacy (if designated, otherwise the privacy point of contact)]

# Introduction

The Department of the Interior requires a Privacy Impact Assessment (PIA) to be conducted and maintained on all IT systems whether already in existence, in development or undergoing modification in order to adequately evaluate privacy risks, ensure the protection of privacy information, and consider privacy implications throughout the information system development life cycle.

Need more guidance? The <u>DOI PIA Guide</u> provides more in-depth information on when and why PIAs are required, legal references and guidelines for filling out this template. You can also email the <u>Departmental Privacy Office</u> for more help.

## I. Determine if a PIA is required

Does this system collect or maintain information from any of the following?

- Members of the general public
- Federal personnel and/or Federal contractors
- Volunteers

No Complete *only* Section 1 and Section 6.

# 2.7 List all minor applications or subsystems that are hosted on this system and covered under this privacy impact assessment.

Enter "None" if no subsystems or applications are hosted. For General Support Systems (GSS) be sure to include all hosted major applications, minor applications, or other subsystems, and describe the purposes and types of PII if any. Privacy risks must be identified and adequately addressed for each hosted application or subsystem identified in the GSS PIA. It is strongly recommended that a separate PIA be conducted specifically for each hosted application or subsystem that contains significant amounts of PII. In any case, the GSS PIA must identify all hosted applications, describe the relationship, and reference or append the PIAs conducted for the hosted applications. The GSS PIA and associated PIAs must be reviewed and approved by all officials as appropriate; and all related PIAs, SORNs and supporting artifacts must be entered into CSAM.

4.2 Are data collected verified for accuracy?

**Yes** Specify how

**No** Specify why not

4.3 Is the PII current? How is this determined?

4.4 What are the retention periods of PII for this system? Under what guidelines are the retention periods determined? Who establishes the retention guidelines?

4.5 What are the procedures for disposition of the PII at the end of the retention period? How long will any reports that contain PII be maintained? How is the information disposed (e.g., shredding, degaussing, overwriting, etc.)? Who establishes the decommissioning procedures?

4.6 Briefly describe privacy risks and information handling practices at each stage of the "information lifecycle" (i.e., collection, use, retention, processing, disclosure and destruction) affect individual privacy.

# Section 5. PII Safeguards and Liabilities

5.1	Is the use of the data both relevant and necessary to the purpose for which the system is being
	designed?

**Yes** Specify how

**No** Specify why not

5.2 Does this system or electronic collection derive new data or create previously unavailable data about an individual through data aggregation?

**Yes** Specify how

**No** Specify why not

5.3 Will the new data be placed in the individual's record?

**Yes** Specify how

**No** Specify why not

5.4	Can the system make determinations about individuals that would not be possible without the new data?		
	Yes	Specify how	
	No	Specify why not	
5.5	How will the I	new data be verified for relevance and accuracy?	
5.6	Are the data or the processes being consolidated?		
	Yes	Specify how	
	No	Specify why not	
5.7	Who will have	e access to data in the system or electronic collection?	

5.8	How is user a restricted?	ccess to data determined? Will users have access to all data or will access be	
5.9		ors involved with the design and/or development of the system, or will they be the maintenance of the system?	
	Yes	Specify how	
	No	Specify why not	
5.10	Is the system using technologies in ways that the DOI has not previously employed (e.g., monitoring software, SmartCards or Caller ID)?		
	Yes	Specify how	
	No	Specify why not	
5.11	Will this syste  Yes  No	em provide the capability to identify, locate and monitor individuals?  Specify how  Specify why not	
	140	Specify Wily flot	

5.12	What kinds of information are collected as a function of the monitoring of individuals?
5.13	What controls are in place to prevent the misuse (e.g., browsing) of data by those having access?
5.14	How will the PII be secured?

5.15 Who will be responsible for protecting the privacy rights of the individuals whose PII is collected, maintained, or shared on the system? Have policies and/or procedures been established for this responsibility and accountability? This includes officials responsible for addressing Privacy Act complaints and requests for redress or amendment of records.

5.16 Who is responsible for assuring safeguards for the PII? Who is responsible for reporting the loss, compromise, unauthorized disclosure, or unauthorized access of privacy protected information?
